

MAHFUJA JAMAN TOMA

B.Sc. in Computer Science Engineering

(+880) 1636065463 | mahfujatoma5431@gmail.com | linkedin.com/in/toma-jaman-99713a323

Address: Sarulia-1361, Demra, Ward No-67, Dhaka City Corporation, Dhaka

PROFESSIONAL SUMMARY

Computer Science Engineering graduate with professional experience in full-stack application development, database operations, reporting dashboards, machine learning, and workflow automation. Experienced in production systems, project development, analytical problem-solving, and team collaboration, with a strong focus on continuous learning and professional growth.

WORK EXPERIENCE

Junior Engineer, Application | Oculin Tech BD Ltd. - Dhaka, Bangladesh

Jan 2026 - Present

- Contribute full-stack architecture and development for Advanced Metering Infrastructure (AMI) platforms serving 2.6L+ customers across DPDC and BREB.
- Architect and deploy production systems, including the DPDC AMI Dashboard, OTBL CMS, automated Missing Reads Finder, and real-time RC/DC live monitoring tools.
- Build core components for the BREB Smart Meter portal (Flutter, Web, Oracle CC&B; integration) and the BREB CMO-to-MDMS migration platform featuring an offline-first Flutter app and Vue 3 admin dashboard.
- Manage multi-database operations across Oracle, PostgreSQL, MS SQL, MySQL, and SQLite; build reporting dashboards (PHP, Vue.js, Bootstrap) for HES, MDM batch operations, and C2M billing workflows.
- Applied AI tools (Claude, ChatGPT, Gemini) for architecture review, code optimization, and workflow automation.

EDUCATION

B.Sc. in Computer Science Engineering | 2020 - 2025

Faridpur Engineering College (DU Affiliated), Faridpur, Bangladesh | CGPA: 3.81/4.00

Higher Secondary Certificate | 2017 - 2019

Holy Cross College, Dhaka, Bangladesh | GPA: 4.67/5.00

Secondary School Certificate

Sanarpar Sheikh Mortoza Ali High School, Dhaka, Bangladesh | GPA: 5.00/5.00

TECHNICAL SKILLS

Computer Languages: C, Java, Python, HTML, SQL

Frameworks and Technologies: Node.js, Express, Vue 3, Bootstrap, JWT, Sequelize

Databases: PostgreSQL, Oracle (CC&B;/MDM/CISADM), MS SQL, MySQL, SQLite

Professional Skills: Problem-solving and analytical thinking; data interpretation and report preparation; project planning and time management; team collaboration and coordination; leadership and adaptability; critical thinking and decision-making

RESEARCH EXPERIENCE

Data Analysis using Machine Learning

PROJECTS

DPDC AMI Dashboard - Full-Stack AMI Operations Platform | Jan 2026 - Mar 2026

Junior Engineer, Application | Oculin Tech BD Ltd., Dhaka | Supervised by: Md. Tanvir Sulaiman

- Built a production AMI management platform featuring live RC/DC tracking with NOCS breakdown, bank-wise payment reconciliation, automated missing reads finder, and a 3-tier data recovery system using local SQLite for 2.6L+ customers.
- **Tools / Technology:** Node.js, Express 4, Vue 3, PostgreSQL, Oracle CISADM, SQLite, Sequelize, Telegram Bot API

BREB Smart Meter - Customer Self-Service Portal and Ops Dashboard | Apr 2026 - Jun 2026

Junior Engineer, Application | Oculin Tech BD Ltd., Dhaka | Supervised by: Md. Tanvir Sulaiman

- Developed an OTP-authenticated customer web application to track live meter usage, billing, and recharge history via Oracle CC&B;, alongside a real-time Vue 3 ops dashboard for monitoring and reporting.
- **Tools / Technology:** Node.js, Vue 3, Oracle CC&B;, PostgreSQL, JWT

BREB CMO to MDMS Migration Platform | Jul 2026 - Present

Junior Engineer, Application | Oculin Tech BD Ltd., Dhaka | Supervised by: Md. Tanvir Sulaiman

- Engineered a migration pipeline transferring legacy CMO records to Oracle MDMS, combining an offline-first Flutter field app with ML Kit OCR/GPS tagging and a real-time Vue 3/TypeScript admin portal with test suites in Jest.
- **Tools / Technology:** Flutter, Node.js, TypeScript, Vue 3, PostgreSQL, Socket.io, JWT, Jest

A biomedical dataset analysis for accurate prediction of kidney disease using machine learning | July 2024 - July 2025

Faridpur Engineering College | Supervised by: Md. Tuhin Reza

- Evaluating different models using machine learning for finding best performed model.
- Use the best performed model for accurate prediction of kidney diseases.
- **Tools / Technology:** Machine learning models, Excel, Python, Anaconda, Jupyter Notebook.

Online Library Management System | July 2024

Faridpur Engineering College | Supervised by: Md. Rany Ahmed

- Designed and implemented a Library management system that provides online services for an educational system.

- **Tools / Technology:** HTML, CSS, SQL

Arduino Real-Time Clock Module (RTC) | December 2024

Faridpur Engineering College | Supervised by: Md. Rany Ahmed

- Designed and implemented a real-time clock module that can result in accurate timekeeping, data and sometimes even temperature.
- **Tools / Technology:** Arduino IDE, knowledge of Arduino programming

RELEVANT COURSEWORK

Fundamentals of Computers and Computing; Fundamentals of Programming; Digital Logic Design; Data Structures and Algorithms; Object Oriented Programming; Digital Electronics and Pulse Technique; Computer Architecture and Organization; Computer Networking; Software Engineering; Operating System; Numerical Methods; Formal Language; Automata and Computability; Artificial Intelligence; Introduction to Data Science; Database Management Systems I, II; Design and Analysis of Algorithms I, II; Data and Telecommunication

ACHIEVEMENTS

- Honored with University Merit Scholarship for academic excellence in eight terms.
- Secured Rank 464 in DU Technology Unit Admission Test, 2019-2020.
- Awarded Talent pool scholarship in S.S.C, 2017.
- Awarded Talent pool scholarship in J.S.C, 2015.
