PROFESSIONAL SUMMARY

Computer Science and Engineering graduate (CGPA 3.81/4.00) with 9 months of professional experience as a Junior Engineer, Application at Oculin Tech BD Ltd., building full-stack web and mobile applications for Advanced Metering Infrastructure (AMI) platforms serving 260,000+ customers across DPDC and BREB. Skilled in Node.js, Vue 3, Flutter, and TypeScript, with hands-on multi-database experience in Oracle, PostgreSQL, MS SQL, MySQL, and SQLite. Background in machine learning research, reporting dashboards, data migration, and workflow automation. Seeking a software engineering role to build reliable, scalable solutions.

TECHNICAL SKILLS

Programming Languages: C, Java, Python, TypeScript, PHP, HTML, CSS, SQL
Frameworks and Libraries: Node.js, Express, Vue 3, Flutter, Bootstrap, Socket.io, Sequelize, Jest
Databases: PostgreSQL, Oracle (CC&B, MDM, CISADM), MS SQL, MySQL, SQLite
Tools and Technologies: JWT Authentication, REST APIs, Telegram Bot API, ML Kit OCR, Jupyter Notebook, Anaconda, Microsoft Excel, Arduino IDE
Domain Knowledge: Advanced Metering Infrastructure (AMI), Head-End System (HES), Meter Data Management (MDM), Oracle C2M Billing
AI Tools: Claude, ChatGPT, Gemini

WORK EXPERIENCE

Junior Engineer, Application

Oculin Tech BD Ltd., Dhaka, Bangladesh | Jan 2026 - Sep 2026

- Contributed to full-stack architecture and development of Advanced Metering Infrastructure (AMI) platforms serving 260,000+ customers across Dhaka Power Distribution Company (DPDC) and Bangladesh Rural Electrification Board (BREB).
- Architected and deployed production systems, including the DPDC AMI Dashboard, OTBL CMS, an automated Missing Reads Finder, and real-time Remote Connect/Disconnect (RC/DC) monitoring tools.
- Built core components for the BREB Smart Meter portal (Flutter, Web, Oracle CC&B integration) and the BREB CMO-to-MDMS migration platform, featuring an offline-first Flutter app and a Vue 3 admin dashboard.
- Managed multi-database operations across Oracle, PostgreSQL, MS SQL, MySQL, and SQLite, and built reporting dashboards (PHP, Vue.js, Bootstrap) for HES, MDM batch operations, and C2M billing workflows.
- Applied AI tools (Claude, ChatGPT, Gemini) for architecture review, code optimization, and workflow automation.

PROJECTS

DPDC AMI Dashboard - Full-Stack AMI Operations Platform

Oculin Tech BD Ltd., Dhaka | Jan 2026 - Mar 2026 | Supervisor: Md. Tanvir Sulaiman

- Built a production AMI management platform featuring live RC/DC tracking with NOCS breakdown, bank-wise payment reconciliation, an automated missing reads finder, and a 3-tier data recovery system using local SQLite for 260,000+ customers.
- Technologies: Node.js, Express 4, Vue 3, PostgreSQL, Oracle CISADM, SQLite, Sequelize, Telegram Bot API

BREB Smart Meter - Customer Self-Service Portal and Ops Dashboard

Oculin Tech BD Ltd., Dhaka | Apr 2026 - Jun 2026 | Supervisor: Md. Tanvir Sulaiman

- Developed an OTP-authenticated customer web application to track live meter usage, billing, and recharge history via Oracle CC&B, alongside a real-time Vue 3 ops dashboard for monitoring and reporting.
- Technologies: Node.js, Vue 3, Oracle CC&B, PostgreSQL, JWT

BREB CMO to MDMS Migration Platform

Oculin Tech BD Ltd., Dhaka | Jul 2026 - Sep 2026 | Supervisor: Md. Tanvir Sulaiman

- Engineered a migration pipeline transferring legacy CMO records to Oracle MDMS, combining an offline-first Flutter field app with ML Kit OCR/GPS tagging and a real-time Vue 3/TypeScript admin portal with Jest test suites.
- Technologies: Flutter, Node.js, TypeScript, Vue 3, PostgreSQL, Socket.io, JWT, Jest

Arduino Real-Time Clock (RTC) Module

Faridpur Engineering College | Dec 2024 | Supervisor: Md. Rany Ahmed

- Designed and implemented a real-time clock module that keeps accurate time and date, with optional temperature readings.
- Technologies: Arduino, Arduino IDE

Online Library Management System

Faridpur Engineering College | Jul 2024 | Supervisor: Md. Rany Ahmed

- Designed and implemented a library management system that provides online services for an educational institution.
- Technologies: HTML, CSS, SQL

RESEARCH EXPERIENCE

A Biomedical Dataset Analysis for Accurate Prediction of Kidney Disease Using Machine Learning

Faridpur Engineering College | Jul 2024 - Jul 2025 | Supervisor: Md. Tuhin Reza

- Trained and evaluated multiple machine learning models on a biomedical dataset to find the best performer.
- Applied the best-performing model to predict kidney disease accurately.
- Technologies: Python, Machine Learning, Jupyter Notebook, Anaconda, Microsoft Excel

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science and Engineering

Faridpur Engineering College (Affiliated with University of Dhaka), Faridpur, Bangladesh | 2020 - 2025
CGPA: 3.81/4.00

Higher Secondary Certificate (HSC)

Holy Cross College, Dhaka, Bangladesh | 2017 - 2019
GPA: 4.67/5.00

Secondary School Certificate (SSC)

Sanarpar Sheikh Mortoza Ali High School, Dhaka, Bangladesh | 2017
GPA: 5.00/5.00

RELEVANT COURSEWORK

Data Structures and Algorithms; Design and Analysis of Algorithms I, II; Object Oriented Programming; Database Management Systems I, II; Software Engineering; Operating System; Computer Networking; Computer Architecture and Organization; Artificial Intelligence; Introduction to Data Science; Numerical Methods; Formal Language, Automata and Computability; Digital Logic Design; Digital Electronics and Pulse Technique; Data and Telecommunication; Fundamentals of Programming; Fundamentals of Computers and Computing

ACHIEVEMENTS

- Honored with the University Merit Scholarship for academic excellence in eight terms.
- Secured Rank 464 in the University of Dhaka Technology Unit Admission Test, 2019-2020.
- Awarded Talent Pool Scholarship in S.S.C., 2017.
- Awarded Talent Pool Scholarship in J.S.C., 2015.

SOFT SKILLS

Problem-solving and analytical thinking; critical thinking and decision-making; data interpretation and report preparation; project planning and time management; teamwork and coordination; leadership and adaptability
